

Name	Centre Name	Date
Alex Adams (demo)	Morrisby Demo	19/01/2010

Your major interest preferences: (Completed: 18/01/10)

Caring		Plants & Animals	
Helping		Outdoors/Indoors	
Serving		Countryside	
Advising		Practical	
Selling		Administration	
Persuading		Physical	
Numbers		Music	
Written		Dance	
Organising		Drama	
Evaluating		Art	
Science		Design	
Technology		Music Industry	
Construction		Languages	
IT Programming		Sport	

Your personal profile is calculated from your answers to the career questionnaire, it shows your level of interest in 28 work related areas. The longer the bar the greater your level of interest in that area.

This is how much you might enjoy working in these different areas rather than how good you are at them. The level and spread of interest in each of the 28 areas is used to produce the career suggestions.

Your Top Career Suggestions

Aircraft maintenance technician	Computer service engineer	Geological technician
Engineering tech: chemical	Engineering maintenance fitter	Engineering tech: mechanical
Meteorologist	Computer assembly technician	Laboratory technician
Production manager	I.T. - network manager	Database admin / manager
Software developer/programmer		

This is a list of jobs that are generated from your personal profile and the education level you have or expect to achieve. These are careers that are likely to appeal to you as they most closely match your interests.

Some careers you may have already thought about, others may come as a surprise to you. Use this as a jumping off point for further investigation and research.

Personal Qualities

Patience		Assertiveness	
Social Awareness		Planning	
Team Work		Prioritising	
Goal-focused		Time Management	
Determined		Organising	
Desire to Learn		Identify Problems	
Adaptability		Evaluating	
Enthusiasm		Solution Oriented	
Commitment		Customer Focus	
Responsibility		Enterprising	
Reliability		Finance	
Time Keeping		Listening	
Appearance		Presenting	
Managing Stress		Talking	
Persuasion		Telephone	
Motivating Others		Written	

This is how skilled you see yourself in 32 areas that our research has found to be important to employers. People often don't realise that these 'soft skills' are highly valued in work environments and they are worth considering when making any job choices or applications.

Your Top Course Suggestions

General science	Physics and astronomy	Mathematics and statistics
General engineering	Civil and structural engineering	Electrical and electronic engineering
Manufacturing and production engineering	Chemistry	Health and medical sciences
Aeronautical and aircraft engineering	Mechanical engineering	Marine, naval and ship engineering
Mining and fire engineering	Geology, meteorology and oceanography	Forensic sciences
Environmental and conservation studies/sciences	Biology	Biochemistry and biotechnology
Building services engineering		

Your answers to the careers and/or courses questionnaire as well as the education level you selected have been used to produce the list of subject areas above. These subjects are likely to be of interest to you from the way you answered the questionnaire, you may want to consider them further when making any future education decisions.

This is the output to the GOYW module. The first section show the qualifications you have already achieved (with a mortar board), and those you expect to achieve or are thinking about taking. The bottom section displays your 'Chosen Careers' which includes any careers you have added yourself as well as the Prefinio recommendations.

If a career or course is possible to take (depending on what other qualifications you have or are planning to achieve) then a green tick icon will be displayed next to the name. A red cross means that there may be other requirements that need investigating before entering that particular career or course.

Chosen qualifications

GCSE A*-C

 Geography

 Biology

 Chemistry

 Physics

 Mathematics

GCSE D-G
